

ALLYSHIP MARINE SERVICES LLC

We have experience to deliver the best products and services at very competitive prices and shorter lead time.

ABOUT US

Allyship main aim is to supply equipment, products, commodities, materials and services that are of highest standards to a diverse group of professional companies specialized in marine and offshore construction and maintenance. Allyship geared with a team of experienced and well-trained personnel possessing the required skills and an extensive knowledge of the local market. Allyship strives not only in comprehending our customer's requirements and specific needs but also in proposing the most "cost effective" solutions with a view towards minimizing time and ensuring optimum efficiency.

OUR MISSION

To become a leading service provider by providing the best quality services to our customers.

OUR VISION

To become the trading company of choice of the customers, principals and investors through dedicated professionalism.

QUALITY POLICY

Allyship is committed to meeting and exceeding customer expectations every time by offering high - quality products and services on time delivery through a continuous process of improvement.

ENVIRONMENT POLICY

Allyship strongly believes that the earth and its resources are borrowed from our future generation and incumbent upon us to nurture and protect it for them.

SOCIAL RESPONSIBILITY

Allyship committed to enhance rather than degrade society and environment.

QUALITY CONTROL AND MANAGEMENT

Allyship is Committed To:

- Established a Quality Management System with continuous improvement which provides a framework for measuring and improving our performance.
- Provide its customers high - quality products and services which are fit for their purpose.
- Prepare its staff to perform their work more effectively and efficiently by enhancing required skills through review and actively pursuing an on - going training policy.
- Promoting the culture of continual quality improvements and the philosophy of getting things "right at the first time".
- Rigorously controlling the supply, installation and completion of the program of all projects.
- Everyone is responsible for the quality within the company and for maintaining standards.
